

FOR IMMEDIATE RELEASE:

Walt Kucharski Septic Service of Northeast Ohio Partners with SludgeHammer Group Ltd. for Advanced Wastewater Treatment Solutions

Petoskey, Michigan – SludgeHammer Group Ltd. is pleased to announce Walt Kucharski Septic Service as its newest partner for Advanced Waste Water Treatment Solutions.

Walt Kucharski Septic Service has been Northeast Ohio's leading septic tank cleaning and grease trap company for over 60 years. SludgeHammer Group is a global manufacturing company specializing in proprietary microbiology for wastewater engineering. SludgeHammer is a leader in the industry, only partnering with qualified companies devoted to bringing SludgeHammer-certified advanced treatment technology and products to their region.

As a certified and licensed SludgeHammer technology provider, Walt Kucharski Septic Service will offer industry-leading certified advanced treatment products to the region. The products are certified by IAPMO-UPC/ANSI, MARPOL, NSF-40 and the state of Ohio, ensuring the highest quality and effectiveness of treatment. The products are effective as part of new septic installations and for remediation of failing septic systems.

Walt Kucharski Septic's partnership with SludgeHammer will allow it to offer its clients advanced wastewater treatment solutions that are environmentally friendly, energy-efficient, and cost-effective. SludgeHammer's technology

works quietly and effectively inside the septic tank, using air from a blower that the homeowner cannot even hear. No heavy equipment is used, so the landscaping will not be disturbed. The SludgeHammer proprietary blend of bacteria recover and protect the leachfield soil like an insurance policy. The quality of the liquid improves to the point where it can become a valuable commodity and can be recovered with irrigation systems like sub-surface drip, which both waters and fertilizes landscape vegetation.

"We are thrilled to partner with SludgeHammer Group Ltd. to bring advanced wastewater treatment solutions to our clients across the Akron-Cleveland area," said Walt (Clay) Kucharski, owner of Walt Kucharski Septic Service. "Our team is committed to providing sustainable solutions that protect our environment and preserve the beauty of our community. With SludgeHammer's technology, we can offer our clients the latest in wastewater treatment that is efficient, cost-effective, and environmentally friendly."
